Notes and definitions

Tourism Profiles provide an average profile of travellers to the local area as well as the State. They can assist to identify opportunities and with decision making. A good approach to research is to look at a wide range of sources for a more comprehensive understanding.

Data may not add up to total due to rounding.

 $\ensuremath{\mathbf{np}}$ – indicates that data has not been published due to high sample error.

Notes and definitions

National Visitor Survey (NVS) and International Visitor Survey (IVS) data is collected at the Statistical Area Level 2 (SA2) rather than Local Government Area (LGA). SA2's are based on population and sometimes multiple SA2's are aggregated in the dataset. This is why some Tourism Profiles incorporate multiple LGA's (e.g. Etheridge Croydon Tourism Profile includes Etheridge Shire Council and Croydon Shire Council).

Expenditure per night is based on average spend per night for the applicable tourism region. Expenditure figures are therefore estimates only and should be used with caution.

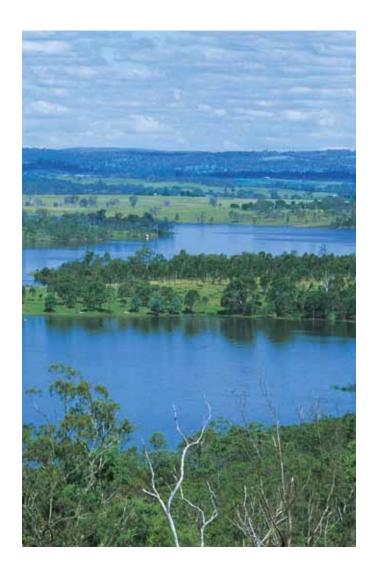

Domestic overnight visitor – an Australian resident, aged 15 and over, who had taken a trip within Australia involving a stay away from home for at least one night (no more than 12 months) at a place at least 40km away from home.

Domestic daytrip visitor – an Australian resident, aged 15 and over, who had taken a domestic daytrip involving a round trip for a distance of at least 50km and of a duration of at least 4 hours but not overnight (routine travel and same day travel as part of overnight travel are excluded).

International visitor – an international resident, aged 15 and over, who visited Australia for a period of no more than 12 months and stayed at least one 1 night in the region.
