### **Year 12 Academic Excellence**

These awards will be presented at the beginning of 2021. With the new QCE system, all results for all students will not be available until mid-December.

Students studying General subjects have just completed their exams. For students studying Maths and Science, their exams count for 50% of their total marks.

Exams for all other General subjects contribute 25% towards final results. Whilst students studying Applied subjects will have their results, it is more appropriate to award students who have performed excellently at the beginning of 2021.
